Mrs. J. B. Elliston of Lubbock spent the week end with friends in Canyon.

Dandelions Spread Over a Greater Part of Town

Dandelions are growing in many sections of Canyon, threatening to spread over the entire town.

A head of one full grown weed will seed hundreds of plants, and cause agony for those trying to keep their lawns free of the pest.

Home owners are urged to make a fight against the spread of dandelions. It is an incessant fight to keep them from seeding the town.

Attendance Jumps At Palo Duro As Spring Arrives

An early spring rush of visitors at the Palo Duro State Park on Sunday indicated the popularity of this picnicking center for the people of the Panhandle. Of the 341 cars entering the Palo Duro during the week, 292 came on Sunday.

This was a larger attendance than any Sunday has had during the early months of the year since the park was opened.

Amarillo contributed 153 cars; Pampa 21; Canyon 15; Plainview 11; Borger 10; Dallas and Happy, 6 each; Tulia and Lubbock, 5 each; Claude 4. 29 cars from 16 states outside of Texas.

Information was received Monday that 130 more negroes would be received next Monday to bring the company to full strength. All CCC camps are being recruited to full strength for this period's work.

With the small number of men at the camp, Supt. Wm. Anderson has been forced to concentrate all his forces on two projects, the cabin and the crossing No. 1. As soon as the additional men are received work will be resumed on the entrance of the park.

2500 Children To Come May 1st for Sing Song Meet

Wilson Plans Regional Meet Which Leads Up to State Contest to Be Held at Dallas

Extensive plans are being made by J. D. Wilson, deputy State Superintendent of Schools, for the district Sing-Song which will be held at West Texas State Teachers College on May 1.

This district comprises twenty-five counties of the Texas Panhandle and every school in the district is invited to participate in the program. Dr. L. A. Woods, State Superintendent of Schools, Miss Nell Parmley, director of the State Music Program, the Stamps Quartet, and 130 high school girls of the Pampa High School Glee Club are scheduled to appear on the program. Mr. Wilson states that 2500 school children are expected in Canyon on May 1 to comprise the largest chorus ever assembled in West Texas.

If the weather permits, the program will be held at the Buffalo Stadium, where a sound truck will be furnished to make the musical program easily heard by everyone attending.

This meeting is held for the purpose of preparing the school children in musical chorus singing and further prepare them for the State meeting which will be held in Dallas on June 13. "These district meetings are sponsored by the State Department of Education and they are part of the musical program started in this state by Dr. L. A. Woods," said Mr. Wilson.

Dallas Train Has 97 Boosters For Visit Yesterday

J. Ben Critz presided and introduced Jimmy Stewart who extended greetings from Dallas. He stressed the fact that Dallas asked the co-operation of all Texans in entertaining visitors during the Centennial. President Roosevelt will head the great parade to the exposition grounds on June 6 and a $50,000 key will open the gates to the 25 million dollar exhibition.

W. V. Bellew extended further greetings to the people of Canyon.

Musical numbers were given under the direction of Alexander Kesse, program director of WFAA, consisting of band numbers, the Bumble Bee Trio, and songs.

The Dallas delegation expressed great appreciation to the News for the splendid reception received while here. Cars furnished transportation from the depot to town and back.

In addition to teaching economics and government, Billy was coach of the girls' basketball team which won the state A. A. U. championship last year.

Mr. McClure is a graduate of W. T. and has been a successful teacher in Plainview for the past seven years.

Miss Emil Brewer of Amarillo spent a short time in Canyon Saturday afternoon.

Listing Money Is Available To All Farmers Qualified

Closing Date May Be Set Soon; Urge Applications For Money Be Made at Once

Many farmers have received free listing money during the past week in the wind control program which was set up by Congressman Marvin Jones' bill in congress. The only obligation in connection with this money is that the listing must be done on the contour in order to preserve all of the moisture when rains start to fall.

The time for closing these grants may come without notice, according to those who are in close connection with the project. Farmers are therefore urged to make application at once in order to be assured of the money for their listing.

The weather during the past week has been ideal, excepting for the lack of moisture. Summer temperature has prevailed throughout the week, and little wind has blown.

Speculation continues as to the prospect for wheat in Randall county. The Dallas News carried an estimate Friday under an Amarillo date line in which Randall county was listed as a 25% loss of wheat. Local people have placed the loss at from 50% to 60%. The acreage planted this year was normal, and reports from all over the county indicates that not more than half of the wheat planted has a chance to produce. The heavy freezes, together with the winds have blown out many crops in sections of the county which have never blown before.

Softball League Will Be Formed Here Friday Nite

Softball fans are called to meet at the Canyon Hardware Friday night at 7:30 o'clock for the purpose of planning the summer league. All fans interested in the league are asked to meet and plan for the season.

Eight teams entered the league last year. The Road Runners from W. T. high school won the championship last year, and will enter a strong team this season, according to A. K. Goodman, manager.

All organizations which wish to enter teams are called upon to send representatives to the meeting Friday night.

Miss Pauline Irons of Happy spent the week end here with her mother.

Government Will Make Payments of All 1936 Contracts

Wheat payments for 1936 will be made to the farmers of Randall county about the first of September, according to information received Friday from Washington. The government will pay 21½ cents per bushel on the contracts of 1936 which were signed before Jan. 6, 1936, the date on which AAA was declared unconstitutional by the Supreme Court. Expenses are to be deducted from the total which has been set at 21½ cents per bushel.

Local committees must measure the wheat land, as they have in the past, to see that farmers have complied with their contracts. The payments will be made about the first of September, which was the time that payments have been made the last two years.

Announcement of this payment for 1936 is in keeping with the policy of the Department of Agriculture to fulfill all of the outstanding contracts which it has made with the farmers.

Annual Convention West Texas Chamber Held May11-13

Elaborate preparations are being made for the West Texas Chamber of Commerce Convention, to be held in Amarillo, May 11-13.

Amarillo's Chamber of Commerce already has appointed convention committee chairmen, among them being Gene Howe, known generally as "Old Tack." He heads the convention's program committee for the host city.

Jed Rix, convention manager, who has established offices there, has predicted a new attendance record will be set at the eighteenth annual meeting.

Scores of bands will be brought by the delegations and one musical organization will be selected at the convention to play at Ft. Worth's opening of the Frontier Celebration early in June.

Ray Nichols, Vernon publisher, who is president of WTCC, and D. A. Bandeen of Stamford, WTCC general manager, conferred there this week with Amarilloans about perparations for the convention.

Governors of Texas, Oklahoma and New Mexico have been invited to attend.

There will be speakers of national prominence on each program during the three-day session.

Postoffice Location Is Bought Saturday; Plans for Building

The government closed the deal Saturday with Mrs. Ruth Costley for the lots north of the First National Bank which will be the site of the new postoffice building.

Frank B. Potter, Assistant U. S. District Attorney, was here from Fort Worth to close the deal, taking a deed to the property.

Mr. Potter stated that he had seen the plans for the building, and that the citizens would be highly pleased with the new postoffice.

Nothing definite has been heard from Washington as to the time the plans will be completed and ready for contractors to bid. A month ago Congressman Marvin Jones stated that it was found necessary to make some revisions, which would take considerable time.

HISTORY GROUP PLEASED WITH FUTURE PLANS

Annual Meeting Held Friday of Panhandle-Plains Historical Society, With 200 Present

FRANK DOBIE TALKS

Patrick Re-Elected Head of Society For Year—Miss Allen Praises the Work of Society

Enthusiasm prevailed Friday over the accomplishment of the Panhandle-Plains Historical Society during the past 16 years, and greater enthusiasm prevailed among the members as the expansion of its program of activity was contemplated for the coming year.

The directors were in session a greater part of the day as various phases of the society's work was reviewed and planned. Plans were made as to the spending of the $25,000 appropriation from the Centennial fund. This contemplated $8,000 being invested in display cases for Pioneer Hall, and the balance spent in building the first story of an addition just to the north of Pioneer Hall.

At the business session in the afternoon, W. H. Patrick of Clarendon, and W. T. Coble of Amarillo, were re-elected directors, and John L. McCarty of Amarillo was elected to take the place of Judge A. J. Fires of Childress, who asked to be released from duty. The directors re-elected Mr. Patrick to the presidency for the coming year.

Reports were made at the afternoon session by L. F. Sheffy, secretary, C. Stuart Johnston, paleontologist, and W. L. Vaughan, treasurer.

Miss Susan J. Allen of Bermuda expressed her very great delight in finding the Historical Society in such fine shape, and the Museum was far beyond her expectations. Miss Allen has contributed the largest individual collection so far placed in the Museum.

President W. H. Patrick urged all members to secure memberships for the Society during the coming year.

Annual Banquet Held

More than 225 persons attended the annual banquet at Cousins Hall at 6:30. A larger number from out of town guests were present than upon any other similar occasion. Many were disappointed in not being able to secure tickets for the banquet.

Announcing that his talk was partly about cowboys, partly about cowmen, and partly about cows, J. Frank Dobie, unorthodox maverick of the University of Texas English Department, gone histor-

Seized Liquor Is Sold, and Report Made State Board

Sheriff Bob Barnett sold at public auction Monday the liquor which was seized several weeks ago by inspectors of the State Liquor Board. The highest bid was $1251.51. This bid was reported to the Liquor Board, which has the authority to accept or reject it within five days.

A number of legal liquor dealers from Amarillo were here for the sale.

Badger-Herring of Amarillo made the highest bid. The liquor belonged to this firm when it was seized by the inspectors for being transported without being properly stamped. Before it may be moved from Canyon each bottle must be stamped, requiring more than $300 worth of stamps on the part of the purchaser.

This is the second time that liquor has been sold in the Panhandle under the terms of the new law.

CANDIDATES URGED TO ATTEND FAIRVIEW MEET

The Beacon Quartet of Amarillo with a company of ten others, will be the main feature of the program Friday evening at 8:30 when the Fairview community will sponsor a box and pie supper. All candidates are urged to be present and will be introduced.

PANHANDLE MEMBER PRESS ASSOCIATION

The annual banquet of the Panhandle-Plains Historical Society brings a large number of the leading citizens of this section together with the thought of preserving the traditions of the past. Sixteen years ago Dr. Hattie M. Anderson called together a small group whom she considered would be interested in preserving the history of this section. The idea stuck in the minds of the pioneers, who wished to see the history of this section properly recorded. Many of those who were first affiliated with the organization of the Society have passed on, but the Society has won the support of an ever increasingly large number of citizens year by year who see the need of the Society. The erection of the first Museum building in the state of Texas stands as a monument to the ardent endeavor of those who have worked diligently for the cause which the Society has sponsored. With $25,000 now available, the work will be pushed forward during the coming year, with the belief that another unit as large as the present Museum will eventually be possible.

All honor to the dairy breeders of Randall county in their victory at Plainview last week. The grand championship in three classes came to Randall county, which is becoming recognized as the premier dairy country of Northwest Texas. The Hales herd topped the Holstein class; the Tierra Blanca herd was winner again in the Jersey class; the herd of C. E. Donnell and Son won grand championship in the milking Shorthorn class. The winning of these herds is a repetition of their showing at the Tri-State Fair show in Amarillo last fall. Take the Randall county herds out of the shows being held over Northwest Texas and these shows would be ruined. The dairy business has carried this county through the depression, as was pointed out at the recent banquet of the Dairymen's Association. Dairy business means diversification in the county, a route by which agriculture will be saved in America.

The Chamber of Commerce is reviving a worthwhile service to the business houses of Canyon. A secret advertising committee has been appointed which will thoroughly investigate all projects submitted to it. The promoters of these projects usually find the business men very busy and without stopping to investigate the merits of the proposals "contribute" a few dollars rather than argue. If the business men will reject all proposals until they are shown a letter of endorsement of the Chamber of Commerce, they will save many dollars. The candidates, especially, should follow this practice. The candidates are imposed upon with all kinds of worthless schemes with the threat that their opponents are going into the proposal, or that the promoter controls a certain number of votes. Business firms of Canyon should use the facilities of the Chamber of Commerce.

The movement has been started again by the State Board of Education to reduce the functions of the various colleges of the state under the guise of economy. Boiled down to its real meaning, the present movement would make bigger institutions of a few institutions of the state at the expense of several others which would be crippled. Instead of attacking the institutions directly in the legislature, the program now is to seek support of regents of the institutions in reducing their usefulness along certain lines. Friends of education in Texas will watch carefully the present movement as they did the one four years ago, which was quickly killed.

Much mis-information has been put out regarding old age assistance in Texas. In the first place no pauper's oath is required to receive the pension, in view of the fact that those making application may have some property and some money in the bank. It must be shown that the applicant does not have sufficient income to live on. In the second place, the age of 65 years is not the only requirement for assistance, as some people are now arguing. The Texas law fits in with the requirements of the federal law, which make the so-called pension applicable only to those without sufficient means on which to live.

John H. White of Borger has announced his intention of running for Congress against Marvin Jones. White seems to be an answer to the Townsend followers' prayer for an opponent to Jones who cannot be fooled regarding the impossible $200 per month pension proposal. Many candidates all over the nation are getting under the Townsend colors, thereby hoping to ride into office. Those who know about White and his ability will not be very enthusiastic over his candidacy.

The Centennial is bringing up many questions of interest. Just what sort of statuary should adorn the campus of C. I. A. at Denton? Is the wild west show at Fort Worth wilder than the early days of Texas? Do the ten-gallon hats being worn by Texas boosters represent the people of the state, or a small percent of the people? Do the people really want history and education at the Centennial, or do they wish thrills and big shows?

Commissioners courts of Hunt and Dallas counties have passed resolutions asking the next session of the legislature not to impose additional taxes upon the property of their counties. Now who is going to pay the old age pension; the $20,000,000 relief bonds; the $15,000,000 deficit in the state treasury? The people demand additional service from their state, but are usually not willing to pay the bill.

Be not deceived by those running for office who tell you how much they will reduce your taxes. This cannot be done without wrecking functions of government upon which too many people are relying. These functions of government will be most ardently supported by those who believe in them, regardless of their unpopularity with certain groups of tax payers.

Winter hopped right into the lap of summer; and then the blamed thing may be reversed before this is printed.

Sunday was one of the most beautiful days this county has had this year. Without doubt the Panhandle can produce the finest as well as the worst brands of weather. However, the citizens will continue to take the sandstorms as a choice between these and the floods and cyclones of other sections.

The increasing popularity of President Roosevelt is again revealed in the poll announced in the Sunday papers. While the policies of his administration were not approved in a recent national poll, the popularity of the President has not waned to a very great extent.

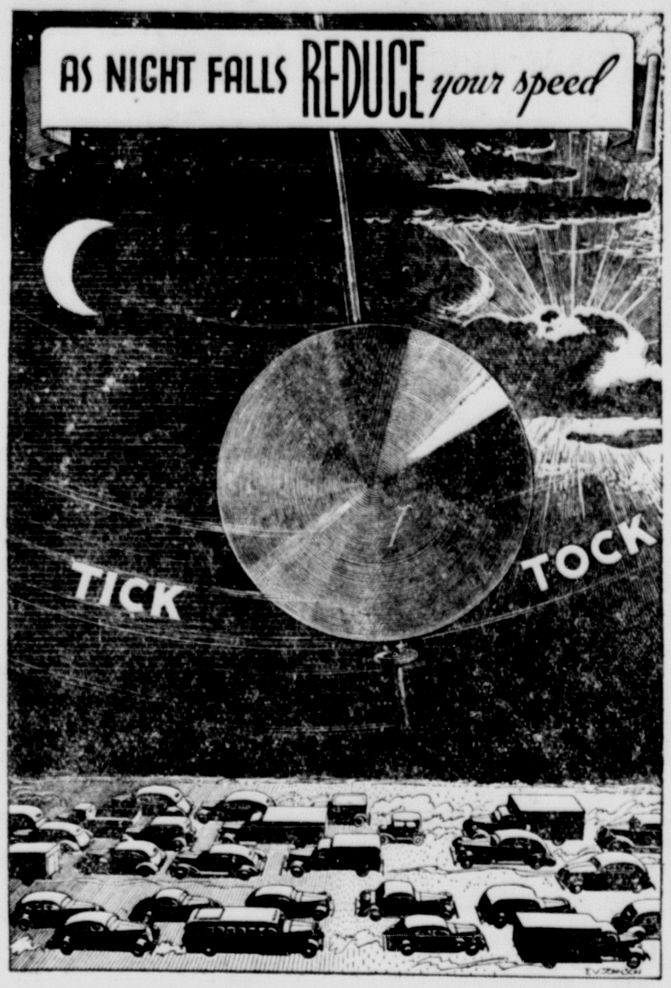

Every town in the nation complains that a lot of painting is needed. Allowing property to deteriorate through the lack of paint is always the results of hard financial conditions. If you have a little extra money, paint is one of the best investments you can make.

Night Automobile Accidents Serious

Travelers Ins. Co. Safety Service.

Last year during daylight there were 14,000 fatal automobile accidents as against more than 19,000 during dusk and darkness. But total accidents in daylight exceeded the number during dusk and darkness by more than 130,000.

The fatal accident record during dusk and darkness, in proportion to all accidents in such periods, was 92 per cent greater than the daytime experience. The tremendous loss of life during hours of darkness constitutes one of the strongest arguments against the present-day practice of driving too fast. There is no way to explain the high rate of death per accident at night except by the fact that many operate cars at speeds during darkness which do not permit them to stop within the range of the illumination provided by headlights. Under such conditions lives are crushed out whenever the unexpected happens. Either highways must be illuminated and the lighting of streets improved, or drivers must remember and act on the warning: WHEN THE SUN GOES DOWN, SLOW DOWN.

Why Gulf is the Gas for April

That means a brand-new gasoline is shipped to Gulf stations—*a gas especially made for April driving.* For unless gasoline is changed to meet Spring's higher temperatures it can't give the highest mileage. Get That Good Gulf—it's "Kept in Step with the Calendar" so that *all of it goes to work, none of it goes to waste.*

OPPORTUNITY KNOCKS FOR THE THEATRE GOER

The Paramount Theatre in Amarillo is planning one of the most novel events ever staged in the Panhandle as a preview on the picture, Mae West in "KLONDIKE ANNE," a Milkman's Matinee. According to J. P. Harrison, Manager of the Paramount, this film is so hot that he intends to keep it frozen in a block of ice in the lobby of the theatre until 6:00 on Saturday morning, April 18, when it will be chopped out of the ice and rushed to the booth so that the show may commence.

This is called a "Milkman's Matinee" purely because of the hour of presentation. All Amarillcans are invited to call the theatre for free transportation to the Matinee on Saturday morning and once there they will be served coffee and doughnuts in the lobby. After seeing the show there will still be plenty of time for all to get to work on time. It is expected that a great many will attend in spite of the early hour. Mr. Harrison challenges all hardy Canyonites to set their alarms for an hour earlier and come over and join the party.

Mr. and Mrs. Barney Conner of Claude were here on business yesterday. They had just returned from Mineral Wells where they spent two weeks.

Rev. Chas. L. Dickey has been invited to attend a meeting of Trinity University exes at Plainview Friday night.

Scene of Air Tragedy and Heroine

This view of the wrecked TWA airliner which crashed near Uniontown, Pa., killing 11, makes one wonder how the three survivors escaped death. Miss Nellie Granger, right, stewardess, was the crash heroine. She assisted the other two survivors from the plane, administered first aid, and then, despite her own injuries, stumbled through a muddy forest to telephone for help.

Stafford Stands On First Men's Co-op Site

The first men's co-op in Canyon was operated in 1911-12 in a house which stood about where Stafford Hall now is, according to R. A. Defee, County Judge of Hartley county who was the student manager of the enterprise.

Among the men who lived in this early co-op were Ewel Condron, now County Judge of Throckmorton county; Buck Holt, now in the lumber business at Harrold; Herman A. Glass, now Superintendent of Schools at Bonham; Sidney J. Woodruff, a farmer at Kress; W. O. Routh, now employed in the United States postoffice at Amarillo; Guy Wheeler of Amarillo; and John Priddy, Bill Boston and Billy Bright, whose addresses are no longer known to Mr. DeFee.

"It is doubtful," says Judge DeFee, "whether the boys who now live at Stafford Hall had any better time than those who did all their own work, sometimes laundry included, in the house which was then owned by C. R. McAfee, now of Amarillo."

It would seem that the only thing farmers in the flood area would have much success in raising this year would be navy beans.

Chicken dinner to starboard!

"Here comes a rooster, floating by on a chicken coop! The repairman is rowin' out to catch him—we'll have chicken stew for supper!"

In the flood-swept little river town, only the telephone operators remained, keeping the lines open for levee workers fighting the angry torrent. And at sundown, by long distance, the marooned office reported all well—and a chicken dinner in sight!

Good times and bad, it takes *people* to give you telephone service—men and women with the ability to do a good job in fair weather, and the courage to stay at their posts when emergencies threaten.

The entire specialized organization of the telephone system—this company, the expert staff of American Telephone and Telegraph Company, Bell Laboratories, Western Electric—exists for one purpose only:

To help the men who patrol the lines, and the women who work at the switchboard, do a better job of giving you good, economical telephone service.

In the twilight hour of a day that made history, the star of Texas rose victorious over San Jacinto.

A hundred years have passed since San Jacinto, yet that day is as yesterday to Texans, who have kept its memory a living thing.

The Texas of today is but Today's expression of all that the men of San Jacinto stood for — freedom, progress, and individuality that is a part of the harmonious whole.

No better wish for Texas could be uttered than that it may continue for the hundred years to come in the pathway marked out for its progress by that band of daring men who gave its empire birth at Goliad, the Alamo and San Jacinto.

Admiration and Bright and Early coffees are satisfying Texans of today because of their real qualities of goodness.

Now ain't them juniors a pepin up here lately. I herd they wus gittin started on ther play thet they are agoin ta put on this year. An by th way if they ain't sum joke tellers. I betcha C. Yessir, another stunt nite has come and gone. I never seen so many boys wearin dresses in my life. Thet Hi-Y Club had sum shore nuff good lookin gals in ther play even if they wus boys, and Sewel reminded me uf Miriah to a tee. Them there Press Club boys wus all in dresses too. I hope thet don't turn out to be the latest style.

Whut drawed my intention wus th Home Ec Clubs "Wonder Makin Muchine." I shore woud like to find out what happened to Ruby Guthrie while she wus in there. I betcha she wus all bones when it wus over, cause jus think how it reduced Marielle.

BETTER EARLY THAN FLUNK!

Judging from the daily occurrences, getting make-up slips in late is chronic in Canyon High School. Do students do it for spite? Don't they realize that teachers have to do extra work in making out new questions or bothering about helping the student? Can't they see that the slips are for their own good?

Wouldn't school life be much more pleasant if we co-operated with the school by getting make-up slips in on time?

SPRING IS HERE

These warm, sunshiny days are surely enjoyable after weeks of sandstorms and cold weather. It seems that spring is really here at last, but who knows when the dust will blow up again suddenly.

However, let's enjoy the warm days instead of being pessimistic and saying, "It can't last," for it cannot be long until warm weather will be here permanently, for a while at least.

Spring fever is taking interest away from books. Students seem to prefer lazily lounging on the front steps to staying in the building preparing their afternoon lessons hoping that the flowers they will soon be able to bring to decorate the teachers' desks will bring up their grades.

Mrs. Sanders Speaks at Home Ec. II Style Show

SARAH THOMPSON WINS FIRST IN STLYE SHOW OF HOME ECONOMICS CLASS. GIRLS FROM HIGH SCHOOL AND COLLEGE CLASSES JUDGE

A style show was given by the Second Year Home Economics Class, and a talk given by Mrs. Dan Sanders on "A Girl's Personality," at a meeting of the Home Economics Club, April 7 in the high school auditorium and home economics room.

Sarah Thompson won first place. Her dress is blue silk with pink accessories. Obera Burgan, whose dress is green linen, won second place. Mary Charlotte Word won third place. Her dress is pink Indianhead with blue accessories. Anna Mae Spencer, whose dress is blue taffeta, won fourth. Margaret Stewart won honorable mention. Her dress is yellow linen with brown accessories.

The dresses were judged by Cleo Heath and Betty Hicks from the College, and Evelyn Cluck, junior.

In her talk, Mrs. Sanders said that graciousness, sincerity, and individuality were the most important qualities of a personality. Subheads under graciousness were: Tact, kindness, and politeness.

After the program plans were made for a bake sale at Bellah's grocery which was held April 11.

Refreshments of candied popcorn and stick candy were served.

Football Players Start New Use For "Baby Bath"

"Baby Bath—Baby Pink" is the label on a large box in the boys' dressing room. That is enough to start a scandal. What are those football boys doing with baby baths? The football pants were supposed to have been in the box, but such a name for them has never been heard of before. Maybe the boys are just a bunch of sissies who can't take a shower.

However the football pants did come in the box which had an old label on it.

Eaglettes Start Spring Basketball

The Eaglettes participating in spring basketball will be divided into two teams and will engage in practice games during the week.

Coach Brown has been drilling inexperienced players on the fundamentals of basketball.

Those coming out for spring basketball regularly are: Annie Sue Rogers, Billy Greenfield, Mary Collins, Natalie Flesher, Wanda Brock, Renna Beth Bellah, Edrie McNeil, Sunshine Harden, Polly Cluck, Myrtle Farr, Mavis Harden Carolyn Mayfield, Kate Donnell, Fern Walters, Raynell Rigsby, Kettee Johnson, Dell Bagley, Mary Bourn, Jo Simmons, Betty Jo Black, Pauline Spencer, Annie Ruth Schmitz, Mary Jo Avent, and Beatrice Burrus.

DID YOU KNOW?

That Billie Bee Flesher is the only Senior whose parent was graduated from Canyon High School. Mrs. Flesher was graduated in 1907?

There was a Romulus and Remulus of the plains. L. G. Conner started the town of Canyon and gave the townsite section, while his brother, Will Conner, did the same for Tulia?

That Coach Jones' art class is making Texas Centennial posters?

That the wind has always blown hard in the Panhandle?

That in March, 1883, Buffalo bones were worth $16 a ton at Wichita Falls?

That the first post office of the Panhandle was located at Mobeetie, Texas?

Thelma Bryant, Rubye Foster, Lorene Bessire, and Helen Elizabeth Bowman, all of '35, were visitors in school Friday.

A JOLLY OLD FELLOW

There is a jolly fellow
Who's as wide as he is tall;
He sweeps and sweeps and sweeps
Till there is no dirt at all.

Now this old jolly fellow
Cleans the desk tops all;
He dusts and dusts and dusts
Till there is no dust at all.

Now this industrious fellow
Continually mops the hall;
He scrubs and scrubs and scrubs
Until he's mopped it all.

We appreciate Mr. Kiker
Because of his energy spent;
We thank and thank and thank
Him for his labor lent.

Older Grade Boys Give Varied Songs In Assembly Wed.

The Grade School Intermediate boys gave a varied program in assembly last Wednesday afternoon.

The program consisted of "The Eyes of Texas are Upon You" sung by the whole group. The introduction of the program was given by Leroy Wooten. Jack Sanders dressed as a Texas cowboy and Dayton Morris dressed as a young negro girl, sang, "O Susyanna." Then the whole group sang "La Cucaracha." Dan Cabe, dressed as a negro mammy sang "Mammy"; E. W. Woods, Jr., sang "Suzanna Jane." "Whoopee—Ti—Yo" was sung by the whole group; "Make Me a Cowboy Again For a Day" was sung by E. Burroughs, Jr. Then seven boys dressed as good looking young ladies came tripping in on the stage and sang "Throw It Out the Window"; Roy Campbell sang a cowboy song; "I'm Popeye the Sailor Man" was sung and acted out by Leroy Wooten. The program closed with the group and the audience singing the school song.

J. D. Wilson Visits In School Monday

Mr. J. D. Wilson, Deputy State Superintendent of District No. 1, visited the school Monday. Of this visit he said:

"It was a pleasure for me to visit the Canyon School system on April 13. I found a very strong elementary school, the class rooms being well equipped with an active program in progress.

"In my check of the high school I found the equipment in good condition. The teachers are well prepared and are working under the most favorable conditions. The most interesting thing I found in the high school is its library. It is far above the average of the high schools of the state. I was happy to find an extensive course of studies being offered in the high school up to date and in a class with the modern 1936 model school.

"The citizenship of Canyon is to be commended for their excellent public school system."

Radio Stars Give Assembly Monday

Since there are so few radios in Canyon, not more than one to each home, Supt. I. B. Carruth "fixed it up" with the N. B. C. (National Broadcasting Company) to give a special C. H. S. Broadcast last Monday from Radio Building, Rockefellow Center, New York, N. Y.

The program was under the direction of that World Famous American Radio Announcer, Melvin Calliham, who introduced the Globe Trotter, Mary Collins, who spoke on "Around the World."

Then, used to be little, Sherman R. Higdon gave his version of "Mussolini Proclaims New Fascist Policies" as seen from under his door.

Next Marjorie Wilkinson, famous secretary to the President, told the "kids" about "Changing Pattern on Modern Life."

The radio program closed with Anna Kathryn Overton, who explained a new game called "Politics." Miss Overton opened her discourse with a loud snort.

After the program the audience was switched back to Canyon High School where J. D. Wilson, Deputy State Superintendent of District 1, who was visiting the school, gave a short talk in which he used a favorite expression," He who commands words, commands events, commands men."

Upon the arrival of the stars from New York, commonly known as Miss Shields' expression room, they were surrounded by enthusiastic students who demanded autographs.

SCHOOL BAND WILL PLAY IN ASSEMBLY APRIL 22

Canyon Public School Band, under supervision of R. G. Stevenson will be featured in assembly April 22.

Selections that will be played are "Little Bluebell," "Overture," "Saskatchewan," and "Military Ecort."

Mr. and Mrs. E. L. Hunter of Amarillo were visitors in school Friday. Mrs. Hunter is Dean of Women of the Buchanan Junior High School. She was observing the work of Miss Lois Goodrich, advisor of the girls here. She said, "I am pleased with your plans for your girls lounge."

SENIOR CLASS CROWNS QUEEN AT STUNT NIGHT

HOME EC. CLUB WINS $2.50 WITH "WONDER - MAKING" MACHINE STUNT; HI-Y WINS $1.50 WITH "A WOMANLESS WEDDING"

A chattering audience grew quiet once more last Friday night in the high school auditorium, when Faye Plaster, senior, and Overton Donnell, senior, were declared Queen and King of Canyon High School in an impressive Coronation ceremony at the Annual Stunt Night.

Their attendants were: Princess Renna Beth Bellah, and her escort James Pope, freshman; Princess Martha Jo Newlin and her escort, Barnett Ball, sophomores, and Princess Mavis Harden and her escort Forest Hill, juniors.

Taylor, Master of Ceremonies

Jack Taylor acted as master of ceremonies, while Wayne Marsh announced each couple on the bugle. Lynette Douglas and Patsy Woods entered before the queen strowing flowers along her path. Richard J. Prichard acted as crown bearer and Shirley Ann Newberry entertained the queen with a tap dance number.

Stunt Night began with the usual stunts put on by the clubs in Canyon High School.

Home Ec. Club Wins First

The Wonder-Making Machine presented by the Home Economics Club won the $2.50 given for the first prize. The Hi-Y Club's Womanless Wedding won second place, while the Press Club won third with the Ballad of Hynd Horn.

Ruby Guthrie was the star performer for the Home Economics club; she certainly did the race of spinsterhood justice.

Mr. and Mrs. L. A. Donnell gave their daughter in marriage last Friday night when Overton Donnell was wed to Todd Cone, son of Mr. and Mrs. Henry Cone, in the Hi-Y stunt, The Womanless Wedding.

Jack Taylor played the part of Hynd Horn in the Press Club stunt, while his young sweetheart was played by Faye Plaster. They were happily wed in the end.

The Book Club presented "Lulu's Back In Town" with Betty Ruth Solomon acting as Lulu, and Loretta Cole as Mr. Otis. Betty Ruth tap danced, while Loretta sang.

The Latin Club presented Pan and Syrinx with Mary Jo Avent and Wayne Marsh as characters.

Major Bowes Amateurs

The Pep Squad presented Major Bowes and his amateurs. J. B. Fowler acted as Major Bowes, and Jack Taylor as the announcer. Nell McNeeley sang a number. Mr. Charles Dickey sang "On the Road to Mandalay"; Dell Bagley sang the "Music Goes Roun' and Roun'"; Albert E. Terry tap danced; Edrie McNeil sang "I'm Gonna Sit Right Down an' Write Myself a Letter"; Mrs. Ed Weeks did a soft shoe dance; Tiny Craig sang "Beautiful Lady In Blue," and Mickey Schmitz and Nell McNeeley tap danced. This stunt was for entertainment only and didn't enter in the contest.

Marjorie Wilkinson played the piano between stunts.

It Takes Finished Chem. Cooperation In Building Planes

By Fred Hart

Do you know what co-operation means?

I don't know what Webster says, and I am too lazy to look and see, but I can give an example.

The Chemistry Class has been making or constructing projects and with the sum total of all projects an airplane could be made.

First, I shall take Thomas Harris' and Douglas Loudder's generator, and then put it into or on a frame of Hal Gamble's alloys. I shall get some of Sherman R. Higdon's or Woodrow Hicks' airplane glue and dope and I will have an airplane structure.

Well, to start it off I shall add some of Nelson Robinson's and Anne Williams' oil products. To make the inside beautiful, I will put some glass in the windows and some dishes and vases around, all secured from Billie Bee Flesher's glass and pottery project.

Now I take Marjorie Wilkinson's ink and draw the plane's charts and I am through. Oh, by the way, I forgot to take a picture for my own project; then I will wash my dirty hands, with Joe Morris' soap, and I am through.

Thus, all the Chemistry Class helps me build an airplane except J. V. Moore, who has been ill with the mumps. He will make some lineament, I guess.

Mrs. W. T. Davis Talks To Study Group Thursday

"Failure is too Costly for the School Child" was discussed by Mrs. W. T. Davis at the Parent-Teachers Association Study Club last Thursday afternoon.

"Curriculum and teachers are chosen to develop the child's personality."

The school teaches such subjects as to bring out the child's personality and develop traits of self-control, self-reliance, and dependability.

Mrs. Davis continued, "It is the school's fault if the child fails. If the child fails because he is lazy, absent from school, or he doesn't understand the course, the school should find out the child's problem and present the course in such a manner as to interest the child."

This topic was taken from the Parents' Magazine.

Both teachers and parents entered into the discussion of failures in school.

CAR WRECK INJURES BROUGHTON HARDEN, '31

Broughton Harden, '31, received internal injuries last Friday night when his car ran into a culvert. He and four other boys were returning from Tucumcari, New Mexico, where they had gone with the West Texas State Teachers College Band.

Broughton is in the Northwest Texas Hospital in Amarillo and is doing as well as can be expected.

BOB BLACK UNDERGOES APPENDICITIS OPERATION

Bob Black, ex-student of '33, underwent an operation for appendicitis last Sunday afternoon at St. Anthony's hospital. He is doing as well as expected.

School Holds Fire Drill; Grades Picnics

A new interval timing clock and a speed test record chart have been added to the equipment of the typing class.

The Senior Class took measurements for caps and gowns last Tuesday afternoon. They were ordered through the People's Store.

Mildred McCraw from Wildorado enrolled in the Freshman Class, Monday morning.

Rex Bridges from Amarillo started into grade school Thursday. He is in the first grade.

Mrs. Carl Scott returned to school last week after a brief illness.

Grades 1B, 4B, 3A and 3C, and 2B, under the supervision of Miss Virginia Jarrett, Mrs. Isabel Cousins, Miss Ruth Greenfield, and Mrs. Tom Brasher, respectively, went on picnics last week in celebration of Easter Sunday.

Mrs. T. W. Collins, teacher of 1A, was ill during the one-week holiday of her class, which was declared because of exposure to scarlet fever.

Grade 2B, under the supervision of Mrs. Tom Brasher, has finished its picture show on the airplane.

Mrs. G. W. Cox returned this week from Temple, Texas, where she went four weeks ago to undergo an operation. Mr. Cox left last Wednesday to bring her home. She is recovering rapidly.

Mr. B. E. McGlamery, who is with the Crippled Children's Division of the State Department of Education, visited Canyon High School last Monday. Mr. McGlamery was here in connection with the selling of seals which goes to the state fund for crippled children.

Last Wednesday when the fire bell rang, every monitor and officer was quickly doing his duty. Every window and door was closed, and the students were at a safe distance from the building in a minute and a half. After remaining outside a minute they returned in an orderly manner. Mr. Pope said, "I am well pleased; a minute and a half is much better than I expected."

District Interscholastic League Meets Tomorrow

Recital Features Pupils In Costume

A costume recital will be given Friday night at 8 o'clock by the Music and Expression departments under the supervision of Mrs. Lee Foster and Miss Edith Shields.

The music pupils who will take part in the recital are: Doris Marie Ball, Ben Carolyn Dunaway, Anna Ruth Schmitz, Annie Lee Newlin, Beulah Hammond, Anita Davis, Mary Ann Bellah, Edith Neff, Martha Frances Campbell, Jane Campbell, Martha Jean Dowd, Martha Lee Foster, Nina Louise Creswell, Leroy Wooten, H. R. Fulton, and Thomas Harold Thompson.

The expression pupils who will take part in the recital are Carline Scott, Clarence Eugene Thompson, Bernice Lowrie, Willis Criswell, and Bill Knighton.

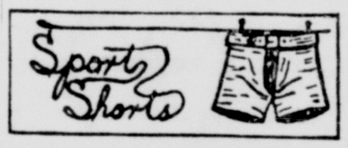

Typing Students Receive Awards

Four members of the typing classes under the supervision of Miss Ethel Rowland were presented with typing awards given by the Gregg Writer, official Stenographer and Typist Magazine in assembly yesterday.

Marjorie Wilkinson was given a gold pin for making 52 words per minute for ten minutes with three errors. Loretta Cole, and Annie Williams were given certificates for making 40 words with four errors on the same test.

Fred Hart was given a Junior O. A. T. (Order of Artistic Typist) certificate for completing the required selection.

Gertrude Brandt and Fred Hart have qualified for competent typist awards with 35 words each, but the certificates have not arrived.

Everyone is wondering how the football game April 24 is going to come out. To settle a class grudge, the seniors and freshmen are going to play the juniors and sophomores. School officials decided that this would be the safest way to end a class fight. The juniors, apparently the instigators of the class fight, put a flag on the building Thursday night, but it was immediately taken down by the freshmen.

A keen interest has been shown in tennis by several students, mostly boys. This is indeed an interesting sport and should be given more thought and consideration by the student body. A few years ago, this school was always represented by a tennis team in the district meet, but for two or three years, the outdoor courts have gone to ruin and very little interest has been manifested.

Several Ex-Eagle football players are proving themselves valuable assets on the college squad this spring. T. V. Slack, '34, two year letterman, is playing regular halfback; F. A. Thomas, '33, one-year letterman, is also playing in the backfield. Edd Brooks, a last year graduate who starred two years for C. H. S. is a fullback on the squad.

The Eagles received their gold basketballs last Monday afternoon. Those receiving basketballs were: Melvin Calliham, junior, Jack Taylor, captain '35, senior, Wesley Cox, senior, Leslie Lisle, senior, Thomas Harris, junior, C. L. Drummond, junior, and Wesley Cox received a gold football.

English III Classes Unearth Strange Startling Truths

"Did you know that we were having a revolution in the movies? Yes sir! Grandma has started acting again."

Not only has grandma started acting again in the movies, but Joe Louis is a mean, mean man in the ring.

"Major Bowes treats his entertainers with dinner every Sunday night before his program." That and also "Reno has more divorces than marriages."

These are only a few of the many interesting things the Junior English Classes learned while they were having their oral compositions last week, based on articles read in magazines.

Everyone save your nickles and dimes to come to the Junior Play and for once see the Juniors act like college students.

Three Are Hurt In Auto Wreck

Accident Occurs During Return From Band Tour

Three students of W. T. were injured in an auto accident Friday night while returning from Tucumcari, N. M., where the Buffalo Band had played a concert during the day.

Those injured were W. L. Waggoner, Childress, fractures of the left thigh and left arm; Broughton Hardin, Canyon, internal injuries; and Carl Spratt, Hereford, neck injury. Charles Stratton, the fourth member of the party received minor bruises and a laceration of the lip.

The car in which the students were riding at the time of the accident, driven by Hardin, struck a concrete culvert on the highway between Wildorado and Amarillo and was completely demolished. The engine of the automobile was driven into the front seat by the force of the impact.

Waggoner, Hardin, and Spratt are patients in Northwest Texas Hospital, Amarillo, where they were taken a few minutes after the accident. Stratton was given emergency treatment and released.

All of these students are members of the band.

is any oil any different? is any oil any different? is any oil any different?

Change to the different oil... *alloyed*

and be kind to your wallet

We'd rather see you change to *any* fresh oil, before we'd have you risk watery Winter dregs in your crankcase any longer. *Any* fresh oil is better for you than that.

But when you change to Germ Processed, don't do it just to change your brand of oil; *do it to change your whole brand of lubrication!*

That's how different this *alloyed* oil is. And here's why: the patented Germ Process of alloying oil gives it an "affinity" for metals . . . not only for steels and iron, but for every type of bearing metal now in use, no matter how carefully it must be lubricated.

With alloyed oil actually merging into every inner engine surface, and with the high-durability Germ Processed oil-film also in between the moving parts, your engine is doubly summer-safe. You can streak along on days that shimmy with heat. But your heat indicator needn't jump, and your oil level needn't slump. Not with this different, *alloyed* oil . . . High time for you to say "Drain," but be selfish—say *Conoco Germ Processed.* Continental Oil Company.

Resettlement Talk Made Tuesday At Rotary Luncheon

Ralph G. Bray talked Tuesday at the weekly luncheon of the Rotary Club on the work of the Resettlement Administration, which has established regional headquarters in Amarillo.

"The depression started with agriculture long before 1929," stated Mr. Bray, as he recalled the difficulties which had been met. Water and wind erosion have ruined 100 million acres of land in this nation; another 100 million acres have been partly ruined; and 100 million acres are threatened. Erosion has cost this nation 25 billions of dollars in losses of natural resources.

Resettlement Administration was started in April, 1935, and has four divisions: 1, Study of uses of land; 2. Rural rehabilitation; 3, Project planning; 4. Farm debt adjustment.

"The work is not going to be done recklessly," stated the speaker, but plenty of time would be taken to make a complete study of different problems.

Mr. Bray states that this department is here to co-operate with the people in solving the problems of the territory. Radio programs are being put on twice weekly, and information is being spread in various ways to tell the people what services are available.

Tom Galloway was introduced as a new member of the Club.

President Irby Carruth announced a committee to work up interest in the district convention, composed of Harry Brown, Bill Smith, Harris Cook, Wes Kleinschmidt, and Doug Shirley.

The nominating committee to recommend officers for the coming year was named of the ex-presidents, Joe Hill, Doug Shirley, Clyde Warwick, Oscar Gano, Vet Ingham and Bob Jarrett.

Visitors present were: F. A. Zimpfer, Leroy White, W. S. Norman, E. H. Holloway, Mrs. Lillian Bray, of Amarillo; Louis Upchurch of College Station; Bob Barnett of Canyon.

Centennial Dance Will Be Given at W. T. Friday Nite

Dress rehearsal Tuesday night for the Texas Centennial Pageant which will be given Friday evening, showed that the production will delight all of those who see it. Miss Ruth Cross and Mrs. Florence Fulton are in charge of the program which is open to the public and which is expected to bring several hundred out-of-town visitors to the college auditorium, April 17.

Of the 154 people who will take part, 28 are from Canyon. They are Lela Hickox, Robbie and Rubye Foster, Mable Schmitz, Loura Fern Brian, Cleta Cope, Louise Cleland, Ruth Cecil, Jacqueline Tabor, Lorene Bessire, Thelma Bryant, Ruth Baker, Helen E. Bowman, Margaret Croson, Winnie D. Hicks, Yvonne Thomas, June Cope, Betty Hicks, Irene Thompson, Mary May Harrison, Virginia Line, Margarethe Meyer, Thirza Bourland, Edwin Dutton, Miles McGehee, Helen Heath, J. H. Wright, and Dorothy Hicks.

Probably the most thrilling part of the pageant will be the finale when 150 performers will be on the stage at one time singing, "Texas Our Texas." The pageant, however, represents the struggle which Texans have had and still have with nature. It shows the dances of the Indians, Mexicans, Germans, Czechs, French and Spanish who have made Texas, and it shows the coming of industry to the pioneer land.

Elaborate costumes, most of them made by students and many of them dyed by Miss Robinson and members of the art department, add to the magnificance of the production.

Dr. Arlin Turner, Prof. Leon Lassers, Prof. John A. Gillis, R. A. Terril, Wallace R. Clark, and others have assisted in the pageant.

A charge of 25c is made to cover cost of materials used.

Historical Society

(Continued from page one)

ian, culminated the day's activities of the Panhandle-Plains Historical Society meeting with his address on "Traditions of the Cow Country," at the Annual Banquet, Friday evening.

"Ample time," cheerfulness, independence, local color, simplicity, liberality combined with "nearness," he named as characteristics of the Texas cowmen, developed since their beginning 100 years ago when Southern horsemen ran Santa Anna's adherents across the border and brought back cattle. They got their reputation for yelling, shooting, and raising the devil there and have never been able to live it down.

The Texas cowboy, henceforth, set the style all the way to the Canadian Rockies. They are the one contribution of Texas to the world. Civilization may have followed the plow elsewhere, but west of the Brazos River, the plow followed the cowboy—who was following the longhorn.

The old Indian who said, "Isn't God good, he gives us night to sleep in and the day to rest in," is the definition of "ample time" that the speaker applied to the typical cowman who sat all morning in the shade of the gallery with his horse saddled, wondering whether that whirlwind was a sign of rain or a sign of dry weather. And then wondered whether that prairie hen was a sign of rain or a sign of dry weather.

The cheerfulness of the cowboy is shown by the expression, "Thank God, the hides ain't mortgaged."

The independence of the cowman is traditional and a frontier characteristic, just as an anecdote on Sam Houston. "Houston wasn't a cowboy, but he might have been. If this story isn't true it ought to be," explained Dobie.

They say that Houston during election year, sent word down on the Colorado River that he was coming; so they had a big dinner fixed for him.

For dessert there was hot rice pudding "than which there ain't nothing hotter." Houston took a good mouthful and immediately ejected it on his plate and the surroundings.

"Many a damn fool," he spit, "would have swallered that!"

Still speaking of the cowboys independence, Mr. Dobie added, "I doubt if there have been any civilized people who have been fonder of their business than the cowman."

The characteristic of simplicity is universal with the cowboy. Leading with O. Henry's story of the cowboy who said that drip coffee was too technical for him, Dobie gave Frank King's recipe for good old western coffee. "Take two pounds of Arbuckle Coffee, two gallons of water, boil two hours, then put in a horse shoe, and if it won't float, it's too weak."

Led by Dr. J. A. Hill and Mr. Patrick, tribute was paid to departed pioneers.

Announcement of the Panhandle Centennial celebration in Pampa, June 2, 3, 4, and 5, was made by Dick Hughes of Pampa. Floyd Studer of Amarillo announced the Panhandle Folk Lore Festival on May 8.

The Harry Kelly String Band of Pampa furnished old time music throughout the evening. Bernard Meyer, Amarillo, sang two solos, accompanied by Miss Josephine Martini. Herschel Coffee, professor of violin, gave a violin solo, accompanied by Mrs. Coffee. Hugo Lowenstern, Jr., Amarillo, gave two saxophone solos, accompanied by Miss Evelyn Kennedy.
